

LESSON PLAN - Accounting 1

The Accounting Cycle

KEY CONCEPT:

- ? The student will be able to understand the interdependence of the steps in Accounting Cycle.
- ? The student will be able to give a presentation to the class in the student group on one step of the (accounting cycle - how to post to Ledger Accounts).

PERFORMANCE OBJECTIVES:

Student will create a PowerPoint Presentation that demonstrates and explains one of the steps involved in the accounting cycle (posting transactions to the General Ledger Account.)

TECHNICAL STANDARDS ADDRESSED: Accounting Services Pathway

- ? A1.1 Understand the accounting cycle for service and merchandise business.
- ? A1.2 Examine, analyze, and categorize financial transactions.
- ? A1.3 Complete the accounting cycles for a merchandise business.

ACADEMIC SKILLS REINFORCED: Language Arts

MATERIALS:

- ? Student work station
- ? Student data disk
- ? Presentation software
- ? Projection system
- ? Accounting Text Book.

MOTIVATION/OPENER:

- ? Review the accounting cycle.
- ? Student teams are assigned one step in the accounting cycle to demonstrate as a PowerPoint presentation.

PRESENTATION: (Teacher Activities)

Discuss the history of communications techniques - students communicate a message to their partners without using words. Discuss the need to make presentations of their analysis of a step or procedure. Communicate the relationships of the steps in the accounting cycle steps.

APPLICATION: (Student Activities)

Student groups will create a PowerPoint Presentation for the class that demonstrates and explains one of the steps involved in the accounting cycle, such as, posting transactions to the General Ledger Accounts.

ASSESSMENT/EVALUATION:

- ☐ Student teams presentation will be evaluated on the following:
 - ☐ Ability to demonstrate their conceptualizations of the processes required to perform their specific portion of the entire accounting cycle
 - ☐ A Rubric that evaluates on a 1-5 scale the following Communication Standards:
 - ☐ A2.6 Did the group clearly establish the speakers point of view on the subject of the presentation
 - ☐ B2.6 Did the group clearly establish their knowledge and understanding of the subject.
 - ☐ C2.6 Use of effective, factual descriptions of appearance, concrete images, shift perspectives and vantage points, sensory details.
 - ☐ Multimedia presentation features:
 - ☐ Text contrast to background, color compatibility.
 - ☐ Slide layout - not too busy or crowded
 - ☐ Placement of images – complement, not distract from concept presented

CLOSING: Students, as a class activity, evaluate each others' presentation (on paper anonymously). Teacher presents student evaluations to the class.

LESSON PLAN REFLECTION:

Evaluate the individual presentations for key elements that need to be re-enforced. Reflect on any adjustment and/or changes that would improve the lesson.
